Skin disease over... time

Letters of Welcome

Dear Friends and Colleagues,

We welcome you to Zaragoza for the **14th Congress of the European Society for Dermatology & Psychiatry (ESDaP)**.

The Local Organizing Committee is proud to host Dermatologists, Psychologists and Psychiatrists, as well as Physicians and Nursing Staff who work in the field of Psycho-dermatology and Psychosomatic Dermatology.

A diverse and stimulating scientific and social programme has been prepared for this occasion. We encourage you to actively participate in the academic and social events.

All together, we will work towards making the Congress thrive with scientific knowledge and human warmth.

Enjoy your stay in Zaragoza!

Lucía Tomás

ESDaP EC Member and President
of the Local Organizing Committee

March, 2011

Dear Congressman/woman,

As Mayor of Zaragoza, it gives me deep satisfaction to welcome you to our city, the host of 14th Congress of the European Society for Dermatology & Psychiatry (ESDaP) on the 17th - 19th of March.

Zaragoza has been recognised for some time for its splendid conditions to host this type of meetings. Its excellent geographic location, the high quality of its congress infrastructure, its broad cultural offer, including the city's urban features, ideal and appropriate for a walk and together with the kindness of its people, make its status of Congress City represent one of the distinctive characteristics at present.

Thanks to all this, I hope that during the time you will spend in our city, as well as providing all kinds of scientific wisdom in the meetings to be held, you will be able to take some time out to get to know it so that your stay is pleasant enough to make you want to return.

Kind regards,

Dear Colleagues,

It is our pleasure to announce the opening of the **14th Congress of the European Society for Dermatology & Psychiatry (ESDaP)**.

The central theme of the Congress is **"Skin Disease Over ... Time"**. We are honoured to host a large number of International Experts on Psychodermatology.

A varied and intense scientific programme will be accompanied by social and cultural activities. The Congress offers ample opportunity to discover the blend of cultures in **Zaragoza** and to enjoy the hospitality of its people.

We are very pleased to welcome you and we look forward to sharing knowledge, experience and friendship with you.

The European Society for Dermatology and Psychiatry (ESDaP)

ESDaP is a scientific society, legally established in 1993 in Vienna under Austrian Law, aiming primarily to provide a forum for European physicians and psychologists working in the field of psychodermatology, psychosomatic dermatology, and dermatopsychiatry, to foster exchange of information and ideas and, more generally, contacts among professionals in the field, to improve the quality of scientific research in the area, and to recruit new members providing important expertise. The ultimate aim of the society is to foster improvement of patient care by putting into practice insights gained through research in psychodermatology.

The Society organizes an international congress every two years. Moreover, ESDaP takes part actively in other international congresses, such as EADV congresses, etc.

Acta Dermato-Venereologica acts as the official journal for ESDaP.

You are welcome to ask for information on membership application during this Congress or by visiting our webpage: www.psychodermatology.net

The Herman Musaph Award Ceremony

In 1995 the Herman Musaph Foundation for Psychodermatology was established in Amsterdam, the Netherlands. The Foundation commemorates Herman Musaph, psychiatrist and one of the founding fathers of Psychodermatology.

The Primary aim of the Foundation is to promote psychodermatological research. Every two years the Foundation presents the Herman Musaph Award to a scientist who has made an outstanding contribution to the advancement of Psychodermatology.

A presentation ceremony is held during each International Congress on Dermatology and Psychiatry organized by the European Society for Dermatology and Psychiatry. The Herman Musaph Award is a medal made by a renowned Dutch artist, Geer Steyn.

In previous ceremonies, the Award has been presented to *Uwe Gieler* (1999), *Caroline Koblenzer* (2001), *Emiliano Panconesi* (2003), *John Cotterill* (2005), *Andrew Finlay* (2007) and *John de Korte* (2009).

The City of Zaragoza:

Romans, Moslems, Jews and Christians have all left their marks by way of a living heritage and they have shaped the singular personality of this town and the open character of its people. The wealthy historical heritage of the city of Zaragoza is the result of this mixture of cultures. Visitors can enjoy the fascinating Roman legacy, which left its mark on impressive archaeological remains now enhanced as museums; the magnificence and charm of Mudejar art, classified as Heritage of Mankind; the Christian formality and Jewish tradition; the force and intelligence of Goya's work; the Baroque grandiosity of the Pilar and the flavours of our land.

Zaragoza offers visitors a warm and welcoming atmosphere. A city with clear Mediterranean roots, Zaragoza is a town that lives in the streets. Squares and avenues full up with people talking, reading, walking... Open and vital, the people of Zaragoza not only receive visitors with hospitality and offer them their human warmth, but they are always willing to share their city, their traditions, their festivities and joie de vivre with them.

Tourist Booth at the Congress Venue:

Throughout the Congress, there will be a Tourism Information Point in the main hall of the Congress Venue with someone to inform you about the city, places to visit, getting around on public transport, etc. You will also be welcome to help yourself to brochures on different places to visit, as well as getting all the information you need about Zaragoza from an English speaking expert on the city.

At walking distance from the Congress Venue, you can:

- Visit the Zaragoza Aquarium, which is the largest fresh water aquarium in Europe.
- Take a walk in the Water Park, which was built at the same time as the Expo 2008.
- Take a cable car and visit the city from a height of more than 30 metres to enjoy the views over the Ebro River and the Expo site.

Sign up for a City Tour with guide on open top bus:

On Saturday, 19th March, at 7.00 pm, after the closing of the Congress, a bus will pick up the people who have signed up for this tour (free of charge for registered congress members) outside the Congress Venue. The ride will last just over an hour and will finish its route at the Plaza de la Catedrales where a guide will explain the history of its buildings, el Pilar and la Seo. Afterwards, you will be free to walk around the old part of town and try the typical "tapas" or a meal in one of the many restaurants in the area. You will have to make your own way back to the hotel, but you will find buses and taxis nearby. Remember that it is necessary to have signed up prior to Saturday, at the Registration Desk of the Congress Venue.
