

ESDaP newsletter

Reminder: do not wait to register!

Dear ESDaP Members, dear friends,

We would like to remind you that we will be celebrating our ESDaP Congress in Giessen, Germany, from the 20th to the 22nd of June 2019. The title is "[The skin patient - a multidisciplinary challenge](#)". It promises to be a great event with a program that has been given much thought (see below).

In October ESDaP will also be offering a new training course on [practical aspects and management in psychodermatology](#). It will be held from the 24th to the 26th of October 2019, in the beautiful city of Brussels. Sign up, attendance to this course is an important step to the ESDaP diploma in Psychodermatology.

Talking about the diploma, as some of you already know, ESDaP has decided to launch a Psychodermatology Diploma. You can work towards credits for this diploma by attending meetings such as our congresses, our psychodermatology meetings - this year the World Congress in Milan and the EADV Congress in Madrid, and the psychodermatology training courses we organize every year.

2019

24th – 26th October 2019
Brussels, Belgium
[Training Center ND du Chant d'Oiseau](#)

Your first step to the
ESDaP Diploma in Psychodermatology

Psychodermatology
Practical aspects and management

More info:
president@psychodermatology.net

Reduced rates are offered to ESDaP members who are up to date with their membership fees. Acta Dermato-Venereologica have just sent the link to pay the 2019 ESDaP membership fee. We encourage you to click on the link and make the payment so that you do not forget. We very much look forward to meeting you at some of these meetings.

Towards the new congress

We are happy to announce that ESDaP members and health professionals interested in the field of psychodermatology are now able to submit abstracts for the 18th ESDaP-Congress.

European Society for Dermatology and Psychiatry
18th Congress
20-22 June, 2019
Giessen, Germany

The skin patient – a multidisciplinary challenge?!

The program will consist of keynote and invited lectures on itch by Prof. Gil Yosipovitch (University of Miami Miller School of Medicine, USA), Prof. Sonja Ständer (University of Münster, GER), Prof. Elke Weisshaar (University of Heidelberg, GER) and Prof. Andrea Evers (University of Leiden, NL).

In addition, we are delighted that Dr. Andrew Thompson (University of Sheffield, GB) will talk about psychotherapy for skin patients and that Prof. Uwe Gieler (University of Gießen, GER) will give a keynote on patient education and e-health programs for patients with skin diseases.

Symposia on stigmatization (invited speakers: Prof. Christoph Mulert, Prof. Jan Häusser (both University of Gießen, GER) and Dr. Florence Dalgard (University of Lund, SW), psychosomatics, psychoneuroimmunology (invited speakers: Prof. Christos Zouboulis (Brandenburg Medical School, GER) and Prof. Eva Peters (University of Gießen and University of Berlin, GER)), patient education and e-health offer the possibility to discuss these topics from different perspectives.

Friday morning will be dedicated to young scientists. Junior as well as mid-term career scientists will have the opportunity to present their work and be awarded prizes for the best oral presentations as well as poster presentations. Moreover, early career scientists will be able to meet experts in the field of psychodermatology during a mentoring lunch.

If you have information you wish to share with the members, please send it to esdap.newsletter@gmail.com.

Thanks for reading,

Françoise Poot, Lucia Tomas & Anthony Bewley
